

Project Proposal

By Stephanni Larsen

WHAT?

- Using Art to draw attention to our tendency to assume and make judgments rooted in our own understanding verses reality.
- Myers-Briggs personality type test
- Mounted Robotic camera (Video playing a cinematic moment)

WHY?

Louise Bourgeois,
10 am when you Come to me, 2006

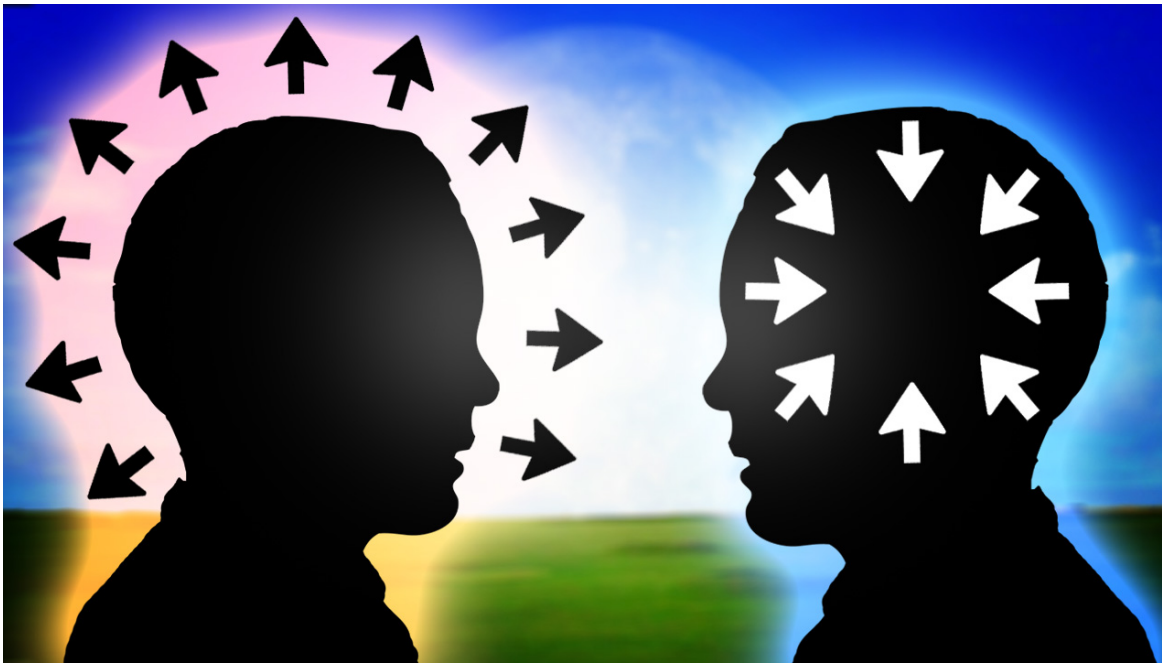

Roni Horn

Roni Horn aka Roni Horn, 2009

What is Myers-Briggs

- A test referring to the typology of an individual.
- Originates from the Jungian Theory of Personality types

HOW?

- Participant: Watch a small clip
- Wall mounted camera
- Capture the image of the individual as the expected response would occur
- After the participant watches three variations of the clip they take a personality test

GOAL

Feeling Female

- What do we know?
- How much can we know about a person?
- How much can we assume?
